

## 2<sup>nd</sup> IFSTP Conference - Tours, France, April 23-26, 1995

1. Wild CP. Kleihues P. Etiology of cancer in humans and animals. [Review] [43 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):95-100, 1996 Feb.  
UI: 8672881
2. Williams GM. Iatropoulos MJ. Weisburger JH. Chemical carcinogen mechanisms of action and implications for testing methodology. [Review] [55 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):101-11, 1996 Feb.  
UI: 8672863
3. Ito N. Hasegawa R. Imaida K. Hirose M. Shirai T. Medium-term liver and multi-organ carcinogenesis bioassays for carcinogens and chemopreventive agents. [Review] [40 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):113-9, 1996 Feb.  
UI: 8672864
4. Hart RW. Leakey J. Duffy PH. Feuers RJ. Turturro A. The effects of dietary restriction on drug testing and toxicity. [Review] [33 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):121-7, 1996 Feb.  
UI: 8672865
5. Abdo KM. Kari FW. The sensitivity of the NTP bioassay for carcinogen hazard evaluation can be modulated by dietary restriction. [Journal Article] Experimental & Toxicologic Pathology. 48(2-3):129-37, 1996 Feb.  
UI: 8672866
6. Keenan KP. Laroque P. Soper KA. Morrissey RE. Dixit R. The effects of overfeeding and moderate dietary restriction on Sprague-Dawley rat survival, pathology, carcinogenicity, and the toxicity of pharmaceutical agents. [Review] [24 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):139-44, 1996 Feb.  
UI: 8672867
7. Jussila T. Makinen M. Stenback F. Oncogenes and growth factors as indicators of carcinogen exposure. [Journal Article] Experimental & Toxicologic Pathology. 48(2-3):145-53, 1996 Feb.  
UI: 8672868
8. Monro A. Are lifespan rodent carcinogenicity studies defensible for pharmaceutical agents?. [Review] [70 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):155-66, 1996 Feb.  
UI: 8672869
9. Ashby J. Cost-effective methods for identifying carcinogens. [Journal Article] Experimental & Toxicologic Pathology. 48(2-3):167, 1996 Feb.  
UI: 8672870

10. Greaves P. The evaluation of potential human carcinogens: a histopathologist's point of view. [Review] [17 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):169-74, 1996 Feb.  
UI: 8672871
11. Iatropoulos MJ. Williams GM. Proliferation markers. [Review] [31 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):175-81, 1996 Feb.  
UI: 8672872
12. Weisburger JH. The 37 year history of the Delaney Clause. [Review] [21 refs] [Historical Article. Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):183-8, 1996 Feb.  
UI: 8672873
13. Williams GM. Whysner J. Epigenetic carcinogens: evaluation and risk assessment. [Review] [55 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):189-95, 1996 Feb.  
UI: 8672874
14. Hayashi Y. Risk assessment of carcinogens in Japan. [Journal Article] Experimental & Toxicologic Pathology. 48(2-3):197, 1996 Feb.  
UI: 8672875
15. Lorentzen RJ. Impact of the Delaney Clause at the FDA. [Journal Article] Experimental & Toxicologic Pathology. 48(2-3):198, 1996 Feb.  
UI: 8672876
16. Fenner-Crisp PA. Impact of the Delaney Clause in the EPA. [Journal Article] Experimental & Toxicologic Pathology. 48(2-3):199-200, 1996 Feb.  
UI: 8672877
17. Weisburger JH. Human protection against non-genotoxic carcinogens in the US without the Delaney Clause. [Review] [41 refs] [Journal Article. Review. Review, Tutorial] Experimental & Toxicologic Pathology. 48(2-3):201-8, 1996 Feb.  
UI: 8672878
18. Williams GM. Karbe E. Fenner-Crisp P. Iatropoulos MJ. Weisburger JH. Risk assessment of carcinogens in food with special consideration of non-genotoxic carcinogens. Scientific arguments for use of risk assessment and for changing the Delaney Clause specifically. [Review] [21 refs] [Consensus Development Conference. Journal Article. Review] Experimental & Toxicologic Pathology. 48(2-3):209-15, 1996 Feb.  
UI: 8672879
19. Anonymous. 2nd Conference of the International Federation of Societies of Toxicologic Pathologists. Tours, France, April 23-26, 1995. Proceedings. [Congresses. Overall] Experimental & Toxicologic Pathology. 48(2-3):93-215, 1996 Feb.  
UI: 8672880
